### 19/2023

#### Stimati parteneri,

Va reamintim ca sistemului RO e-Factura este obligatoriu de la 1 ianuarie 2024, pentru toate livrarile de bunuri si prestarile de servicii care au loc in Romania, realizate in relatia business-to-business (B2B)

Standardizarea sistemului de facturare electronica la nivel international are beneficii semnificative in ceea ce priveste reducerea fraudei TVA la nivel national si are drept principal scop reducerea pierderilor asociate cu evaziunea fiscala.

#### Dear collaborators,

We remind you that the RO e-Invoice system is mandatory from January 1st , 2024, for all deliveries of goods and services that take place in Romania, carried out in a business-to-business (B2B) relationship.

The standardization of the electronic invoicing system at the international level has significant benefits in terms of reducing VAT fraud at the national level and has as its main purpose the reduction of losses associated with tax evasion.
